Your Employees are Targets.

Even with advanced technology, data can still be at risk

Companies are **3 times more likely** to be breached **via social attacks** than technical failures.

The
Hu
Human Element
2018

28% of Data Breaches

show **human error** as a major contributor to data loss.

3 most common attack vectors

phishing
malware
social engineering

@ Up to **56%** of email recipients

Clicked on a link from an unknown sender even though they knew the risks.

Why? **Curiosity**

3 Ways to Minimize Risk

Social Engineering Pen Testing
Security Awareness Training
