

BE ON GUARD. PROTECT THE DATA.

SUSPECT. DETECT. PROTECT.

SECURE YOUR DATA WITH COMPLEX PASSWORDS

AVOID USING PERSONAL INFORMATION OR SIMPLE WORDS THAT ARE EASY TO CRACK. USE SPECIAL CHARACTERS SUCH AS “%” OR “\$” SO IT’S HARDER FOR HACKERS TO SNIFF OUT YOUR CREDENTIALS.

BE THE WATCHDOG FOR YOUR USER INFO

NEVER STORE YOUR PASSWORD ON YOUR DEVICES. IT JUST MAKES IT EASIER FOR HACKERS TO ACCESS YOUR ACCOUNTS.

KEEP A STRONGHOLD FOR YOUR PASSWORDS

ADOPT A PASSWORD VAULT APPLICATION TO MANAGE YOUR MANY UNIQUE PASSWORDS. WHILE KEEPING CREDENTIALS, IDENTITY AND SENSITIVE DATA SAFE, THESE APPS COULD ALSO GENERATE STRONG, UNIQUE PASSWORDS AS YOU REFRESH YOUR ACCOUNT INFORMATION.
