

THREAT LEVEL:
Elevated

You have been targeted by a syndicate intent on stealing valuable information.

Beware these dangerous operations designed to infiltrate your protected intel.

Take extra caution in this hostile online environment.

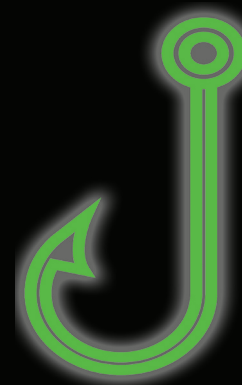

RISK:

Weak Credentials

ACTION:

- Create unique and strong passwords (refrain from your familiar names or using the same passwords as other accounts).
- Update your passwords every 90 days.

RISK:

Unknown Contact

ACTION:

- Do not engage with random people online trying to connect on social media.
- They can manipulate you to discover specific information or vulnerabilities in your network controls.

RISK:

Unverified email

ACTION:

- Avoid clicking on email links from an unfamiliar source. It can launch malware.
- Contact your manager immediately if you do mistakenly click.

YOUR MISSION:-
SECURITY PROTOCOL
