What we are going to cover today

1   The Problem – Why Securing Budget is Difficult

2   The Solution – Documented Trust & Confidence

3   Real Life Examples – How it Works

4   Applying It – Immediately, 3 months, 6 months

RSA®Conference2022

1. The Problem

### *Why Securing Budget is Difficult*

Your Budget Situation

Raise Your Hand if ...

- **You have 100% of the _budget_ you truly need to get your job done right?**

- **You have 100% of the _staff_ you truly need to get your job done right?**

- Today we will talk about:

  - Why does this problem occur?

  - How does this problem manifest itself?

  - How you can all raise your hand the next time you are asked if you have 100% of the budget or staff you need.

Two Parts that Factor into Securing a Budget

- **Trust**: In <u>how we have managed security</u> in the **past**

- **Confidence:** In the information presented in the **present** to <u>reach a quality decision</u>

Budget Request

Past

△

Future

Trust: In how we have <u>managed security</u> in the **past**

Present

Confidence: In the information presented in the **present** to <u>reach a quality decision</u>
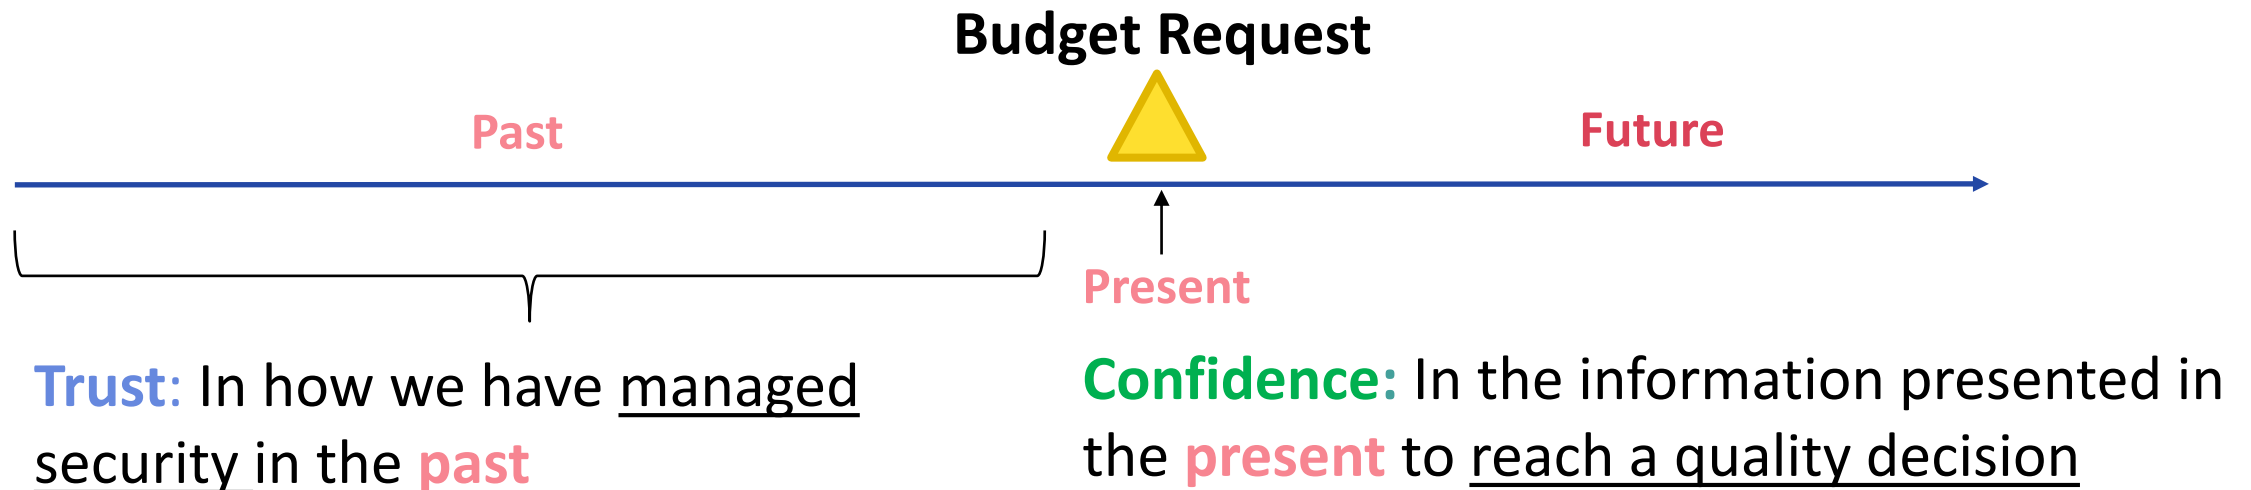

Establishing Trust and Confidence

If you asked your Leadership Team these four questions, how would they respond?

1. **Risk Management:** Do we have a "<u>clear line</u>" to definitively know if a Risk is "okay" to accept, or "not okay" to accept and we need to remediate it?

2. **Communication:** When discussing risks, are InfoSec and Senior Leadership <u>speaking the same or different languages</u>?

3. **Legal Protection:** Are we in a <u>legally defensible position</u>?

4. **Budgeting:** Are we <u>spending the right amount</u>?

Establishing Trust and Confidence

We surveyed 140 **CEOs and CFOs**[1]. Of the C-level respondents:

65% DO NOT understand **when** it is "okay" to accept a risk

85% DO NOT understand **what** InfoSec is saying

96% DO NOT know if they are in a **legally defensible** position

97% DO NOT know if they are spending the **right amount** on Security

C-Level executives *do not* have the information they need to approve budgets!

[1] Cybersecurity Breakfast "How Safe Is Your Data" Webinar - April 22nd, 2021
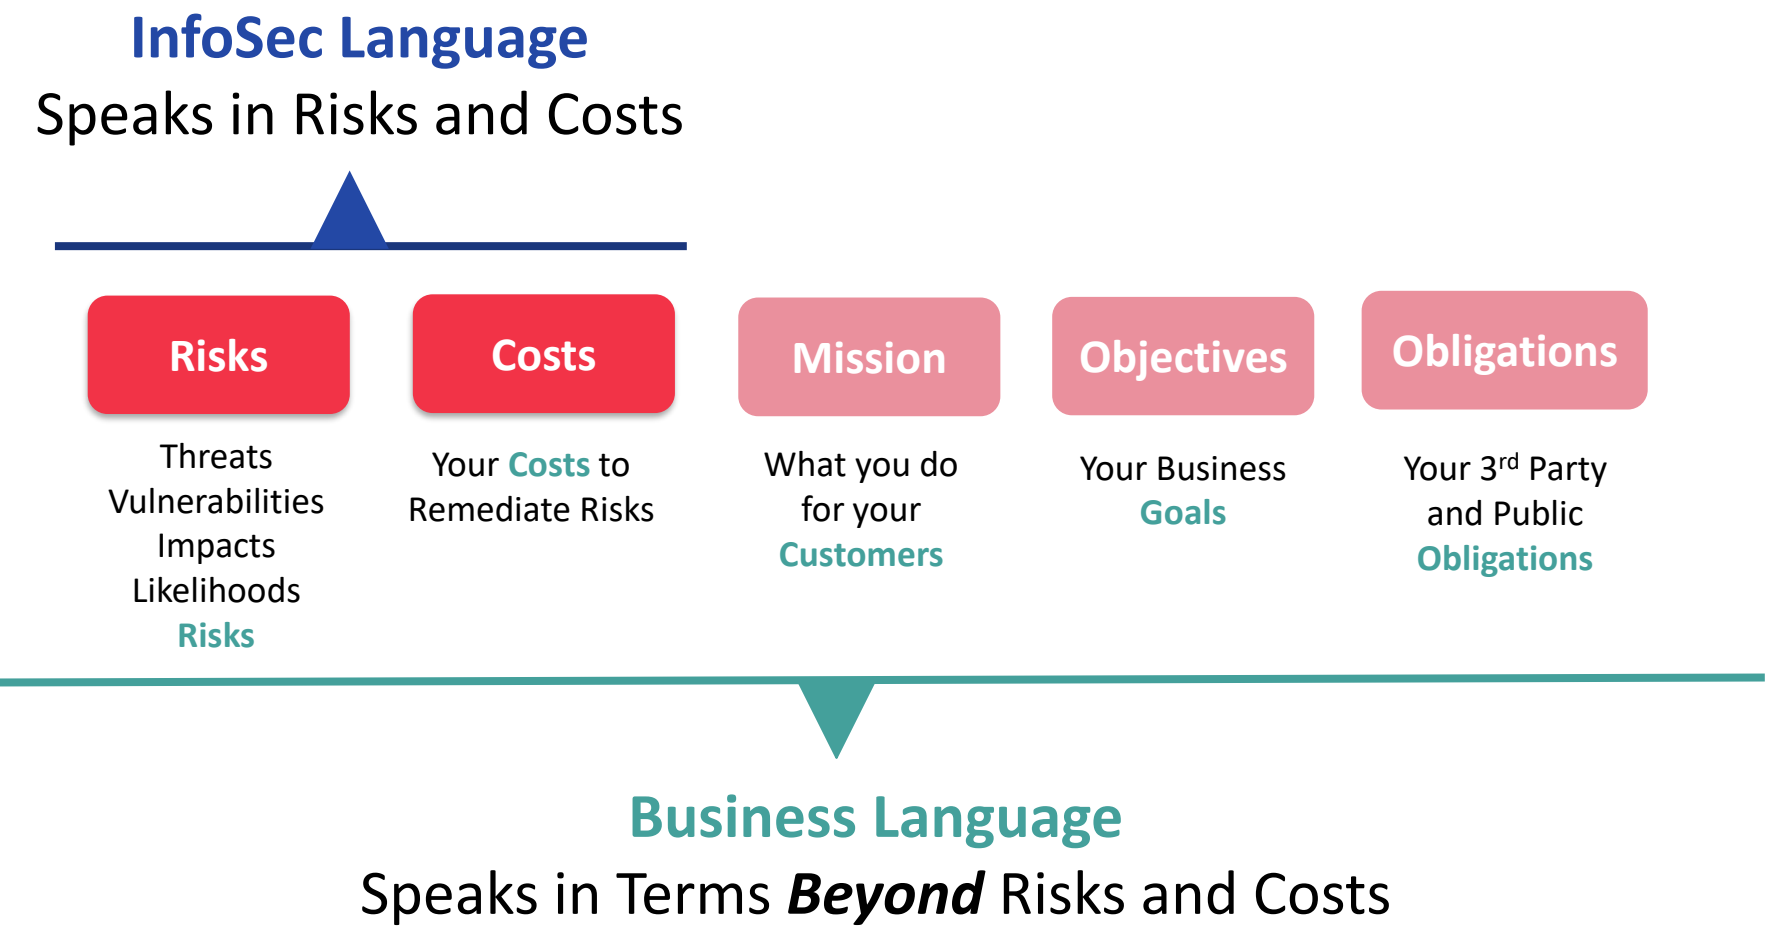

So, What Happens When C-Level Does Not Have the Information They Need to Approve

- They approve as little budget as they feel they must!

- That is why the InfoSec function is so frequently under-resourced!

How Are InfoSec and C-Level Speaking Different Languages?

InfoSec Language
Speaks in Risks and Costs

Risks	Costs	Mission	Objectives	Obligations
Threats Vulnerabilities Impacts Likelihoods **Risks**	Your **Costs** to Remediate Risks	What you do for your **Customers**	Your Business **Goals**	Your 3rd Party and Public **Obligations**

Business Language
Speaks in Terms *Beyond* Risks and Costs

When Budget Approvers Don't Receive the Information They Need, You Don't Receive the Budget You Need!

Risks & Costs

Risks, Costs, Customers, Business Goals, Obligations

InfoSec

Business

More Budget

Less Budget

Unless you recently experienced a breach or the project has political clout, the **Business wins the budget debate most of the time!**

RSA®Conference2022

2. The Solution
Documented Trust & Confidence

Solution – Documented Trust and Confidence

Duty of Care Risk Analysis (DoCRA) is the solution for creating a common language between InfoSec and Business!

DoCRA is based on the legal concept of "**Due Care**." This means, we must protect others from the harm we may cause them by implementing controls that are not more burdensome to us than the risk of the harm to others.

Due Care is the level of care that the <u>legal system expects an organization to perform</u>.
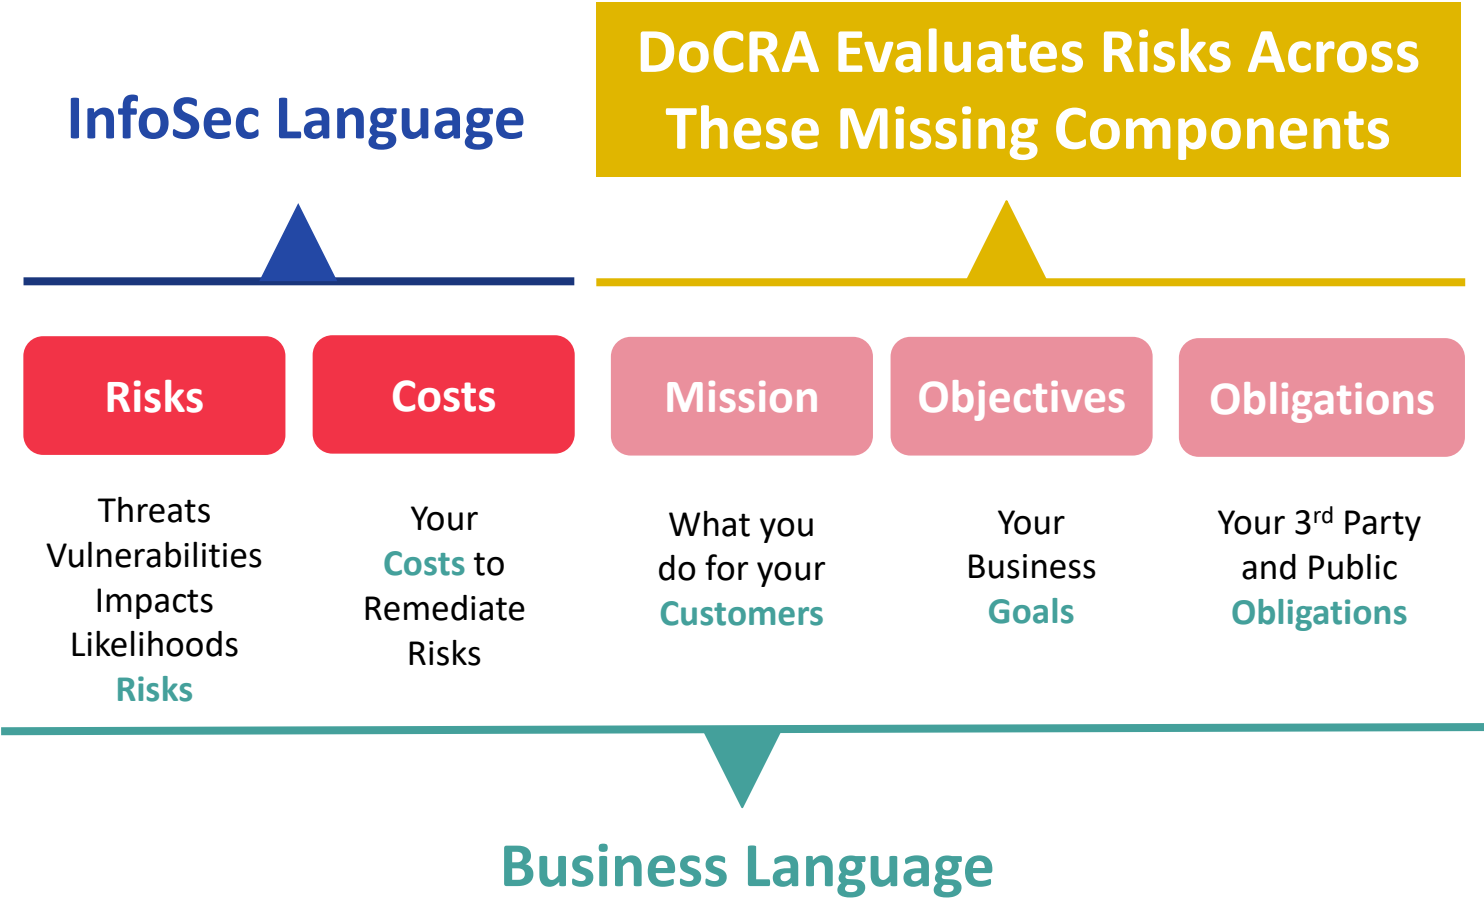

Solution – Documented Trust and Confidence

The **DoCRA** Risk Assessment methodology answers the four questions allowing C-Level need to make informed budgeting decisions:

1. **A clear "line" / risk acceptance criteria** to evaluate whether to "accept" the risk or "invest" in mitigation

2. **Common language** between InfoSec and business / regulators / legal system

3. **Legally defensible** position by defining what is legally "reasonable"

4. **Risk Management process** to know you are spending the right amount

How does DoCRA create a Common Language?

DoCRA **fills in the missing components** to create a <u>common language</u> as a universal translator.

InfoSec Language

DoCRA Evaluates Risks Across These Missing Components

Risks	Costs	Mission	Objectives	Obligations
Threats Vulnerabilities Impacts Likelihoods **Risks**	Your **Costs** to Remediate Risks	What you do for your **Customers**	Your Business **Goals**	Your 3rd Party and Public **Obligations**

Business Language

About DoCRA

- The **Duty of Care Risk Analysis** (**DoCRA**) methodology was launched as a standard in early 2018

- **DoCRA** is a non-profit organization

- **DoCRA** donated a version of its Risk Assessment Methodology to CIS® (Center for Internet Security)

- CIS published this Risk Assessment Method 2.1 (**CIS RAM**), containing DoCRA, with the CIS Controls Version 8

- **DoCRA** can be utilized with CIS, NIST, ISO or any control set

About DoCRA (Continued)

- **DoCRA** has had **significant adoption**

- Over 50,000 downloads of the CIS RAM 1.0 and over 10,000 downloads of CIS RAM 2.1 Methodology

- Used by state Attorneys General to determine whether controls were legally "reasonable" during a breach

- Utilized by federal regulators to develop post-breach corrective action plans (injunctive relief)

Example: Calculated Acceptable Risk Definition (CARD)

Impact	Mission | What Do You Do For Your Customers	Objectives | Your Business Goals	Obligations | Your Public Duty
Definition	Provide information to help customers achieve greatness.	Operate profitably.	Customers must not be harmed by compromised information.
1. Negligible	**1.00** - Customers continue to access helpful information, and outcomes are on track.	**1.00** - Profits are on target.	**1.00** - Customers do not experience loss of service or protection.
2. Low	**2.00** - Some Customers may not get all the information they need as they request it.	**2.00** - Profits are off target, but are within planned variance.	**2.00** - Customers may be concerned, but not harmed.
3. Medium	**3.00** - Some Customers cannot access the information they need to maintain good health outcomes.	**3.00** - Profits are off planned variance and may take a fiscal year to recover.	**3.00** - Some Customers may be harmed financially or reputationally after compromise of information or services.
4. High	**4.00** - Many Customers consistently cannot access beneficial information.	**4.00** - Profits are off planned variance and may take more than a fiscal year to recover.	**4.00** - Many Customers may be harmed financially or reputationally.
5. Catastrophic	**5.00** - We can no longer provide helpful information to Customers.	**5.00** - The organization cannot operate profitably.	**5.00** - Some Customers may be harmed financially, reputationally, or physically.

Does the <u>Narrative and How We Provide Information</u> to Budget Approvers Really Matter?

- Do you know what the movies Rocky, Star Wars, The Matrix, Spider Man, The Lion King, Lord of the Rings, Harry Potter, and countless other hits have in common?
- **These Blockbuster Movies** follow a **proven narrative** called "**The Hero's Journey**"

- **Your Budget Requests** should also follow a **proven narrative,** that provides decision makers <u>the information they need</u> to make a quality decision.

Proven Budget Request Narrative Documenting Trust and Enabling Confidence
Trust in how we <u>manage security</u>

1. **Big Picture** – Program Progress Over Time
2. **Since Our Last Review** – Program Changes
3. **Roadmap** – Planned vs. Actual Risk Reduction (Historic and Future)

Confidence in the information presented to reach a <u>quality decision</u>

4. **List of Unacceptable Risks**
5. **Budget Request – Level 1**: Budget Level (Projects and Costs)
6. **Budget Request – Level 2**: Project Level (Projects and Business Impacts)
7. **Budget Request – Level 3**: Risk Level (Risks and Business Impacts)

1. Big Picture - Program Progress Over Time

	Dec 2020	Jan 2021	Feb 2021	Mar 2021	Apr 2021	May 2021	Jun 2021	Jul 2021	Aug 2021	Sep 2021	Oct 2021	Nov 2021
High				7	6	4	3	3	4	4	4	4
Unacceptable				4	4	4	3	2	2	2	2	2
Acceptable				1	2	4	6	7	7	7	7	7
Total				12	12	12	12	12	13	13	13	13

2. Since Our Last Review – Program Changes

| New Risks Identified | Several new risks identified relating to the Business Email Compromise Incident we experienced last quarter. |

Risks	Acceptable	Unacceptable	High
Risk Count | Prior to Last Review	7	2	4
New Risks Identified Since Last Review	0	0	0
Risk Count | Current	7	2	4

What contributed to risks since last review:

[ ] Customer Requirements [X] Incident [ ] Mergers & acquisitions [ ] New Technology [ ] Other Assessment

[X] Penetration Test [ ] Regulatory Change [ ] Scope Increase [ ] Threat Landscape [ ] Zero Day

[ ] Other (see below)

| Comments | We completed our yearly Pen Test and also had an incident in Finance relating to Business Email Compromise |

# 3. Roadmap – Planned vs. Actual Risk Level

- We stayed ahead of schedule for many months and now below the acceptable risk level

- The decisions you made when you approved resources in March, *enabled the organization to deliver on lowering risks* through July

Baseline Plan vs Current Plan
Proven Budget Request Narrative:
How We Have Established Trust

Trust:
In how we manage security

1 **Big Picture** – Program Progress Over Time

2 **Since Our Last Review** – Program Changes

3 **Roadmap** – Planned vs. Actual Risk Reduction (Historic and Future)

Next Focus

4. Risks That Require Treatment

The **red line** represents our **Acceptable Risk Level** (a "9"), below which we "**accept**" the risk and at or above which we must do something to "**mitigate**" the risk.

Risk ID	Risk Score	Risk Description	Likelihood	MISSION (For Our Customers)	OBJECTIVES (Business Goals)	OBLIGATIONS (3RD Party & Public)
12	25	IT Security conducts informal assessments of all third parties prior to contract completion.	5	4	3	5
2	15	Secure application development is conducted by a third party that is non contractually obligated or coding securely.	3	4	4	5
2	12	All access requests are submitted via ServiceNow and executed by IT.	3	4	3	2
5	6	Passwords for privileged accounts not adequately managed	2	2	3	2
9	6	Employee onboarding lacks access roles	3	2	1	2

5. Budget Request: Level 1 – Budget Level

| Remediation Project	Estimated Completion Date	Status	Approved	RiskIDs Treated	Initial Implementation Costs		Ongoing Yearly Costs		Risk Reduction
					Hard Costs	Soft Costs	Hard Costs	Soft Costs	
Third Party Risk Management Program	12/31/2022	Open	No	5	$80,000	$10,000	$30,000	$15,000	25 to 6
Secure Application Development program	10/30/2022	Open	No	8	$60,000	$30,000	$20,000	$10,000	20 to 6
Access Control program	12/31/2022	Open	No	9	$45,000	$5,000	$15,000	$5,000	12 to 8
Total					$185,000	$45,000	$65,000	$30,000	

Today's Budget Request Summary

- Total Initial **Implementation Costs**: $230,000 ($185,000 Hard Costs + $45,000 Soft Costs)
- Total Ongoing **Yearly Ongoing Costs**: $95,000 ($65,000 Hard Costs + $30,000 Soft Costs)

Yearly Budget Variance Summary

- Yearly Budget Approved: $1,000,000
- Yearly Budget Currently Allocated: $900,000
- Budget Variance Being Requested: $130,000 ($230,000 + $900,000 = $130,000 Over Yearly Budget)

Level 1 – Is Budget Level Request Sufficient?

Is the
Budget Request
Approved at
BUDGET LEVEL
of detail?

YES → Budget is Approved at this level.
Great job!

NO ↓

If more detail is required, we can move to the *PROJECT LEVEL.*

6. Budget Request: Level 2 – Project Level

Project Name: ***Third Party Risk Management Program***

Estimated Completion Date	Status	Approved	RiskIDs Treated	Initial Implementation Costs		Ongoing Yearly Costs		Risk Reduction
				Hard Costs	Soft Costs	Hard Costs	Soft Costs	
12/31/2021	Open	No	5	$80,000	$10,000	$30,000	$15,000	**25 to 6**

|	
What This Project Accomplishes	This project would build out a formal program to assess risk and manage risk for third parties.
Notes	Currently no formal program exists for assessing or managing risk to third parties and this is done ad-hoc.

Risk ID 5 | **BEFORE** THE SAFEGUARD

Acceptable   Unacceptable   High   - Acceptable Risk Level   ● Initial Score

Risk ID 5 | **AFTER** THE SAFEGUARD

Acceptable   Unacceptable   High   - Acceptable Risk Level   ● Initial Score

6. Budget Request: Level 2 – Project Level

Project Name: *Access Control program*

Estimated Completion Date	Status	Approved	RiskIDs Treated	Initial Implementation Costs		Ongoing Yearly Costs		Risk Reduction
				Hard Costs	Soft Costs	Hard Costs	Soft Costs	
12/31/2021	Open	No	9	$45,000	$5,000	$15,000	$5,000	**12 to 8**

What This Project Accomplishes	Develop and Implement an Access Control Program
Notes	Currently no Access Control Program exists

Risk ID 9 | **BEFORE** THE SAFEGUARD
Risk ID 9 | **AFTER** THE SAFEGUARD

Level 2 – Is Project Level Request Sufficient?

Is the
Budget Request
Approved at
PROJECT LEVEL
of detail?

YES

Budget is Approved at this level.
Great job!

No

If more detail is required, we can move to the *RISK LEVEL.*

3. Real Life Examples
How It Works

The Trust & Confidence Meter

Trust

In how you <u>Manage Security</u>

Confidence

In the information presented to reach a <u>Quality Decision</u>

Two Budget Request Approaches with Different Outcomes

Example: Data Loss Prevention (DLP) Budget Approval Request

1. Traditional Approach

2. Proven Budget Narrative Approach

Traditional Approach

Traditional Approach – DLP Budget Request

CISO: "We need a DLP product to catch personal information for claims data that might be leaving the company through email, FTP, web app file shares, or other means."

CISO: "I recommend this $250,000 solution that solves this burning issue and gets us everything we need."

CFO: "That's a quarter of your budget. Is there a more affordable option or could we implement just a portion of it?"

CISO: "The entry level, bare-bones solution from this vendor is $50,000, but it will not eliminate all of our risk."

CFO: "Let's start with approving $50,000 this year and re-evaluate next year."

Traditional Approach – DLP Budget Request

Does Management Have Information to Answer the 4 Questions?

1. **Risk Management:** "clear line" to know if a Risk "is okay" to accept? **Don't Know**
2. **Communication:** Speaking the same or different languages? **Don't Understand**
3. **Legal Protection**: Legally protected? **Not Sure**
4. **Budgeting:** Spending the right amount? **Don't Know**

## Trust and Confidence

Trust & Confidence

What happened?

- The Budget Approver *did not have* the information they needed, so the Budget Requester did not receive the budget they needed!

- **The CISO received a 20% of the budget they requested.**

- **The company is exposed and the CISO is exposed.**

Proven Budget Narrative Approach

Proven Budget Narrative Approach
1. Big Picture - Program Progress Over Time

	Dec 2020	Jan 2021	Feb 2021	Mar 2021	Apr 2021	May 2021	Jun 2021	Jul 2021	Aug 2021	Sep 2021	Oct 2021	Nov 2021
High				7	6	4	3	3	4	4	4	4
Unacceptable				4	4	4	3	2	2	2	2	2
Acceptable				1	2	4	6	7	7	7	7	7
Total				**12**	**12**	**12**	**12**	**12**	**13**	**13**	**13**	**13**

Proven Budget Narrative Approach
2. Since Our Last Review – Program Changes

New Risks Identified	Several new risks identified relating to the Business Email Compromise Incident we experienced last quarter.

Risks	Acceptable	Unacceptable	High
Risk Count | Prior to Last Review	7	2	4
New Risks Identified Since Last Review	0	0	0
Risk Count | Current	7	2	4

What contributed to risks since last review:

	Customer Requirements	X	Incident		Mergers & acquisitions		New Technology
X	Penetration Test		Regulatory Change		Scope Increase		
	Zero Day		Other (see below)		Threat Landscape		Other Assessment

Trust & Confidence

| Comments	We completed our yearly Pen Test and also experienced a security incident in the Finance Business Unit relating to Business Email Compromise (BEC)

Proven Budget Narrative Approach
3. Roadmap – Planned vs. Actual Risk Level

- We have stayed ahead of schedule for many months and below the acceptable risk level
- The decisions you made when you approved resources in March, *enabled the organization to deliver on lowering risks* through July

Baseline Plan vs Current Plan
4. Risks That Require Treatment

Personally Identifiable Information (PII) unintentionally leaving the organization is currently the <u>highest risk is the Risk Register</u>

Risk ID	Risk Score	Risk Description	Likelihood	MISSION (For Our Customers)	OBJECTIVES (Business Goals)	OBLIGATIONS (3RD Party & Public)
12	20	PII leaving the perimeter unintentionally	4	4	3	5
2	15	Secure application development is conducted by a third party that is non contractually obligated or coding securely.	3	4	4	5
2	12	All access requests are submitted via ServiceNow and executed by IT.	3	4	3	2
5	6	Passwords for privileged accounts not adequately managed	2	2	3	2
9	6	Employee onboarding lacks access roles	3	2	1	2

Trust & Confidence

Budget Narrative Approach
5. Budget Request: Level 1 – Budget Level

| Remediation Project	Estimated Completion Date	Status	Approved	RiskIDs Treated	Initial Implementation Costs		Ongoing Yearly Costs		Risk Reduction
					Hard Costs	Soft Costs	Hard Costs	Soft Costs	
DLP Implementation	12/31/2022	Open	No	5	$250,000	$30,000	$20,000	$10000	**20 to 6**
Total					**$250,000**	**$30,000**	**$20,000**	**$10,000**	

Today's Budget Request Summary

- Total Initial **Implementation Costs**: $280,000 ($250,000 Hard Costs + $30,000 Soft Costs)
- Total Ongoing **Yearly Ongoing Costs**: $30,000 ($20,000 Hard Costs + $10,000 Soft Costs)

Yearly Budget Variance Summary

- Yearly Budget Approved: $1,000,000
- Yearly Budget Currently Spent: $800,000
- Budget Variance Being Requested: $80,000 ($280,000 + $800,000 = $80,000 Over Approved Budget)

Trust & Confidence

Level 1 – Is Budget Level Request Sufficient?

Is the Budget Request **Approved** at *BUDGET LEVEL* of detail?

No

Budget is Approved at this level. **Great job!**

If more detail is required, we can move to the *PROJECT LEVEL.*

Budget Narrative Approach
6. Budget Request: Level 2 – Project Level

Project Name: **DLP Implementation Project**

| Estimated Completion Date	Status	Approved	RiskIDs Treated	Initial Implementation Costs		Ongoing Yearly Costs		Risk Reduction
				Hard Costs	Soft Costs	Hard Costs	Soft Costs	
12/31/2021	Open	No	5	$250,000	$30,000	$20,000	$10,000	**20 to 6**

What This Project Accomplishes	PII Leaving Perimeter. Utilizing a $180 cost per lost PII record (IBM Security & Ponemon Institute Report), we calculate a breach cost of $1,800,000 ($180 x 10,000 records) with a potential likelihood of (5) multiple time each year. **The risk has a potential impact of $1,8000,000 multiple times per year**
Notes	

Risk ID 5 | **BEFORE** THE SAFEGUARD

Risk ID 5 | **AFTER** THE SAFEGUARD

Trust & Confidence

Level 2 – Is Project Level Request Sufficient?

Is the
Budget Request
Approved at
PROJECT LEVEL
of detail?

YES

Budget is Approved at this level.
Great job!

NO

If more detail is required, we can move to the *RISK LEVEL.*

Budget Narrative Approach
7. Budget Request: Level 3 – Risk Level

Legend

| Risk Score	
25 20 15 10	**9 or Greater = Unacceptable**
5 0	**8 or Less = Acceptable**

Risk Overview

DLP Implementation Project	12/31/2022	Open	No	5	$250,000	$30,000	$20,000	$10,000	**20** to **6**

RISK IF PROJECT IS NOT DONE

Risk Score: 20 out of 25 (Unacceptable)	Mission Score: 16 out of 25	Objectives Score: 16 out of 25	Obligations Score: 20 out of 25
Likelihood = 4 Likelihood (4) x Highest Impact (5) = **Risk of 20**	**4.00** - Many Customers consistently cannot access beneficial information.	**4.00** - Profits may take more than a fiscal year to recover.	**5.00** – 10,000+ records exposed

RISK AFTER DOING THE PROJECT

Risk Score: 6 out of 25 (Acceptable)	Mission Score: 6 out of 25	Objectives Score: 6 out of 25	Obligations Score: 2 out of 25
Likelihood = 2 Likelihood (2) x Highest Impact (3) = **Risk of 6**	**3.00** - Some Customers cannot access the information they need to maintain good health outcomes.	**3.00** - Profits are off planned variance and may take a fiscal year to recover.	**1.00** – 0 to 49 records exposed

Trust & Confidence

Proven Budget Narrative Approach

Does Management have information to answer the 4 questions?

1. **Risk Management:** "clear line" to know if a Risk "is okay" to accept? *Yes, must remediate*

2. **Communication:** Speaking the same or different languages? *Yes, impacts in business terms*

3. **Legal Protection**: Legally protected? *Yes, we're performing "due care"*

4. **Budgeting:** Spending the right amount? *Yes, spending $280,000 first year to avoid $1.8M potential impact multiple times each year*

Trust and Confidence

What happened?

– Built Trust using the Proven Budget Narrative

– Answered all 4 Questions

Budget Approved!

Managing the "Delta"
Where You Start to Where Budget is Approved

Trust

You may be walking in with a Trust Level that is low for whatever reason and the "delta" to where you need it to be for budget approval will be a greater distance

Managing the "Delta"
Where You Start to Where Budget is Approved

Trust & Confidence

Trust

You will need to get into the yellow to get some/partial level of budget approval.

Managing the "Delta"
Where You Start to Where Budget is Approved

**Trust &
Confidence**

Trust

You will need to get into the yellow to get some/partial level of budget approval.

Confidence

You need to be prepared to provide quality information and <u>Answer the 4 Questions</u> to get into the green and get full budget approval.

Putting It All Together

Budget <u>Requester</u> Provides

Proven 7-Step Budget Request Narrative

Trust:
In how we manage security

Confidence:
In the Quality of Decision based on information presented

1. Big Picture – Program Progress Over Time
2. Since Our Last Review – Program Changes
3. Roadmap – Planned vs. Actual Risk Reduction (Historic and Future)
4. List of Unacceptable Risks
5. Budget Request – Level 1: Budget Level (Projects and Costs)
6. Budget Request – Level 2: Project Level (Projects and Business Impacts)
7. Budget Request – Level 3: Risk Level (Risks and Business Impacts)

+

Budget <u>Approver</u> Receives

Ability to Answer 4 Questions

Does Management Have Information to Answer the 4 Questions?

1. **Risk Management:** "<u>clear line</u>" to know if a Risk "is okay" to accept? **Yes**

2. **Communication:** Speaking the <u>same or different languages</u>? **Yes,**

3. **Legal Protection:** <u>Legally protected</u>? **Yes, we're performing "due care"**

4. **Budgeting:** <u>Spending the right amount</u>? **Yes**

Budget Approved!

RSA®Conference2022

4. Applying It
Now, Three Months and Six Months

Now, 3 Months, 6 Months

- **Now**
  - Start implementing DoCRA
    - Any current Risk method easily can easily be updated to meet DoCRA (which will help you answer the 4 Questions and provide a Legally defensible framework)
    - Start establishing the track-record
  - Start Using the Proven Budget Request 7-Step Narrative
    - Provide Approvers Information Required (**Establish Confidence**)

- **3 Months**
  - Complete implementing DoCRA

- **6 months**
  - Operate DoCRA
    - Demonstrate Risk Reduction over time (**Establish Trust**)
    - Demonstrate Actual vs. Planned Roadmap performance (**Establish Trust**)

Thank You

Now Go Get Your Budgets Approved!
