

# DDOS PISCABLE BOTS

Don't let an attack flood your networks with traffic to disrupt or incapacitate your business operations.

**Know what to look for and report it.**

Your internal applications and software are much slower.

503 Service Unavailable Error, Timeouts, or inability to access your website.

**Be a Boss with your Knowledge.**

Update your devices and software regularly.

Be careful of suspicious emails (Don't Click!).

Use Multi-factor Authentication (MFA).
